Trapani is one of the most romantic places in Sicily, and in the whole Mediterranean littoral. Characterised by long stretches of coast and coastal plains, this city is littered with lavish monuments and palaces, historical sites, windmills, near islands and a countryside that begs to be explored. By night, the region should be enjoyed over a glass of Marsala wine and fine food at a beachside restaurant, ideally facing west so one can enjoy some of the most spectacular sunsets in Europe.

THE CITY

Dmitrijs Mihejevs/Shutterstock.com

Situated on western coast of Sicily, Trapani - even if it is a little city - has a lot to offer, so take your time to explore this breath-taking part of the island. Its strategic position on the Mediterranean coast made it a pivotal commercial harbour in the past, but today it is known as the town of the salt and the sailboats, indeed among its main attractions it is necessary to mention the salt mines and the sail boat competitions. But more than that, Trapani shows to travellers the most elegant face of Sicily through its boutiques and chic restaurants nestled in the ancient buildings of the century city. The centre of the town fully represents Sicily, a land of conquests and a coloured chest of cultures. Each historical period left its trace in this place, where any corner of the town displays architectural beauties and artworks from different centuries. Any monument, cathedral, building, fountain and square narrate the rich past of Trapani.

Furthermore, another beating heart of the town is its beautiful harbour where the well-known fish market takes place every morning. And obviously you cannot miss to taste all the Sicilian specialties!

DO & SEE

Yulia Grigoryeva/Shutterstock.com

This fascinating Sicilian gem fully represents the Italian dolce vita myth. Chic restaurants and shops perfectly blend with the classical architecture of the city, particularly in the ancient town's main road- Corso Vittorio Emanuele. Sickle-shaped and bordered on both its sides by the sea, Trapani has a real beating heart in its historical centre, around which main places of interest are located together with the central bus station and the ferry terminal to reach the city.

Along with the coastal areas of Trapani it is possible to enjoy miles of beautiful beaches where its typical watch towers and windmills dominate the skyline. The shallow waters near the shore make it suitable for relaxing swimming, while further out visitors can sail around the Aegadian archipelago. Furthermore, since tradition plays an important role in Trapani's culture, if you are visiting the city over Easter you cannot miss the Processione dei Misteri (Procession of Mysteries) known throughout Italy for its exceptional extent.
