## THE CITY

*Joakim Höggren*

Luleå was founded in 1621, however the city's history is considerably older than that. The city was originally situated around the medieval church in Gammelstad "Old town", 9 km inland. The amount of shipping through the harbor in Gammelstad increased during the 17th century and because of the ongoing land rise a deeper harbor was required. The city was moved towards the sea, to its present location - Luleå "New town" - and the old town in Gammelstad continued to grow as a church town - Today a popular tourist attraction listed as a World heritage - Gammelstad Church Town.

## World Heritage Gammelstad Church Town

The old town of Luleå - Gammelstad Church Town - located 9 km outside of Luleå city center, is the largest and best preserved church town in Sweden. This unique cultural environment with its medieval church and 408 small church cottages was added to Unesco's world heritage list in 1996. Through history visitors to the church travelling from afar, have been staying overnight in the cottages ever since the 16th century.

In the middle of the town you will find

Nederluleå church – It is richly decorated with one of the finest altar screens in the country, dating back to 1520's.

Don't miss Hägnan in Gammelstad – an open-air museum showing an historical environment with buildings from the 18th until the 20th century. Hägnan gives a realistic picture of how an old village along the coastline of Norrbotten could look like.

The church town is a popular destination for excursions and perfect for picnics.

### BARS & NIGHTLIFE

Cocktail

Try barhopping in Luleå

If you like music and hanging out with friends, there are plenty of places to enjoy. We will guide you through a local bar crawl:

We will start at the top of Storgatan at Restaurant CG, with a wide selection of gin and rum based drinks. How about a Hemingway Mojito?

Continuing down Storgatan, at Elite Stadshotellet, you will find The Bishop's Arms, with Luleå's largest selection of beer and whisky. Try their own beer, from Luleå's only microbrewery pub, or participate in one of their beer tastings.

Then we will take a detour down to the North Harbour and Hemmagastronomi where the cocktail bar is open from the afternoon until late at night.

In a harbour warehouse further down you will find Bistro Norrland and here you can also treat yourself to a drink if you are visiting the Norrbottensteatern theatre next door.

Back on Storgatan again, we visit Invit Bar X, serving new cocktails and old classics. Next stop. Fabriken, for a glass of bubbling champagne. We then continue, stopping at Roasters for a good cup of coffee or a coffee cocktail, an obvious choice as they have their own coffee roaster.

If you are aiming for the stars, take another detour to Luleå's only sky bar at Clarion Hotel Sense across the street from Kulturens Hus. Enjoy a good cocktail with a fantastic view of the rooftops and Luleå's North Harbour.

The crawl nears its end as we return to Storgatan, dropping in to Hotell Savoy and Jazzmatsalen. There, you can relax with something from the bar whilst listening to your favourite music.

Like we said, Luleå has something to suit all tastes.
