Welcome to Bristol! The unofficial Capital of the South West has an independent spirit and a great sense of fun. You'll find lots to make you smile here, from street art tours and music festivals to night markets and boat bars. Then of course there's the city's iconic attractions - engineer Isambard Kingdom Brunel's ss Great Britain and the Clifton Suspension Bridge - and world-famous events - the International Balloon Fiesta and Bristol Harbour Festival. Oh, and have you met Pirate Pete?

THE CITY

Bristol Cathedral

Central Bristol is happily compact enough to explore on foot - or, if you want to take your lead from the environment-minded locals, by bike. You won't need to walk far before you stumble upon fascinating architecture, historic properties and amazing new attractions. Get a sense for the city's past, present and future at museums including M Shed, Bristol Museum & Art Gallery and The Architecture Centre.

Don't miss Bristol Cathedral - a rare example of a city centre cathedral - and other major attractions such as The Red Lodge Museum and The Georgian House Museum.

Make time for the Old City, too. Its atmospheric cobbled streets are now home to shops, cafes and bars that show-off contemporary Bristol's cutting edge creativity and entrepreneurial flair. With St Nicholas Market at its heart, it remains focused on trade - just as it has been since medieval times.

And if you do decide to hire a bike be sure to whizz off and explore some of the city's colourful enclaves such as Southville, whose walls play host to graffiti festival Upfest, and St Pauls - famous for its spectacular Caribbean carnival.

DO & SEE

Brunel's ss Great Britain

There's so much going on in Bristol, the challenge is deciding what to see first! You could spend hours just exploring the Harbourside. The historic dock is now home to Victorian engineer Isambard Kingdom Brunel's ss Great Britain, The Matthew, the Arnolfini art gallery and M Shed museum.

Nearby, on Millennium Square, you can also check out Bristol Aquarium, At-Bristol Science Centre and all the many markets, festivals and events that take place here throughout the year.

Venture a little further uphill and you'll discover the stunning Regency architecture of Clifton, with one of Brunel's most astounding engineering feats, the Clifton Suspension Bridge, and one of the oldest zoos in the world - Bristol Zoo Gardens. The best way to see all this and more is via the hop-on-hop-off Bristol Insight open-top tour bus.

As an added bonus, Bristol is within easy reach of some stunning English countryside. To see what we're talking about, head to the historic Berkeley Castle, set in rural Gloucestershire, or to the dramatic Cheddar Caves & Gorge, surrounded by walking trails. You also find the World Heritage city of Bath just a 15-minute train ride away.
