Lake Tahoe is California's masterpiece. The basin of glistening waters and palatial mountains was formed out of calamitous volcanic activity and glacial works of art millions of years ago, giving rise to the astounding tourist attraction of today. Divided into North and South, both parts equally beautiful, Tahoe keeps locals and visitors occupied all year round. Ski resorts, warm-weather recreation, casinos, reputable nightlife venues, fantastic food, and easy access to Reno, Carson City and Sacramento all make Lake Tahoe the ultimate vacation destination.

THE REGION

topseller / Shutterstock.com

Paint a picture in your mind, sweeping vibrant greens and blues across a canvas of alpine lakes and mountains. It may be inferred that not even the most active of imaginations could conjure something as perfect as Lake Tahoe. Rather than the stuff of dreams, Lake Tahoe is a very real destination with a history that required all 2 million years of its existence to form its beauty.

Faulting formed the Lake Tahoe Basin, uplifting blocks to craft the Carson Range and Sierra Nevada. The grabens, or depressed blocks, carved out the Basin in between the two ranges. During this faulting process, the Basin's highest peaks were formed: Freel Peak (10,891 feet), Monument Peak (10,067 feet), Dicks Peak (9,974 feet) and Mount Tallac (9,735 feet). Several have since become popular hiking and skiing attractions. The dam on Lake Tahoe's north side was created from the eruptions of now-extinct Mount Pluto, while melting snow, rain and runoff provided water to the ancestral Basin. The Ice Ages would landscape modern Lake Tahoe with glaciers.

Amazingly, human activity in the region pales in comparison to the natural activity. The Washoe, a Great Basin Tribe, have occupied the area for the past 6,000 years. They would often spend the winters and spring in the valleys, summer in the

Sierra Nevada and autumn in the eastern ranges. In fact, the "Tahoe" name derives from a mispronunciation of the Washo word for "lake." Non-Native presence was introduced in 1844 by Lt. John C. Frémont during his expedition, forever changing the formerly relatively untouched lands.

Following the mining era and development, the areas encircling Lake Tahoe became oriented to tourism. Ski resorts and slopes, golf courses, casinos, restaurants, and countless other attractions were established for locals and visitors.

South Lake Tahoe lies on the shore of North America's largest alpine lake, making way for watersports like boating, fishing, and skiing. There are bike and hiking trails wrapped around the lake, with restaurants, bars, clubs, and shopping areas located in the city. At North Lake Tahoe, there are endless panoramas of the Basin—drawing not only vacationers, but the world's leading scientists and political leaders. A collection of 12 resorts and towns provide a lively array of dining, nightlife and entertainment options.

DO & SEE

topseller / Shutterstock.com

Lake Tahoe's magnificence is not undermined through the seasons. Winter, spring, summer, and fall: there's always something to do and great sites to be seen. Ski and snowboard to your heart's content during the colder months, or water ski, hike, and fish all day long as warmer weather rolls in. With its varied terrains, some of the world's most fantastical natural landscapes are found in Lake Tahoe.

M.S. Dixie II Cruise

Cruise South Lake Tahoe in the M.S. Dixie II - a genuine paddle wheeler. With 3 decks and spacious dimensions, the award-winning M.S. Dixie

II can carry up to 500 passengers. Departing from Zephyr Cove Resort & Marina, the M.S. Dixie II floats atop the beautiful waves and currents of the waters, giving visitors a whole new perspective of the lake.

DINING

freeskyline / Shutterstock.com

Being near the water, Lake Tahoe has a healthy abundance of seafood that's always fresh. California in general is well-known for its multitudes of pastures and ranches, allowing for Lake Tahoe's restaurants to also have an assortment of organic meats and poultry. The establishments offer to their visitors signature entrees and specialties, ensuring that out-of-town guests are treated, and fed, quite well.

Kalani's

Kalani's regulars are welcomed with a warm "Aloha" as they first enter the popular establishment, followed by a one-of-a-kind dining experience. Combining the flavors of the Pacific Rim, Kalani's spins European and Asian spices and techniques into every dish. Much of the fish is imported from the Hawaiian Islands themselves, and the steaks derive from local ranches. Delve into the sushi bar before heading into the Puka Lounge, where guests can enjoy exotic and tropical wines, beer, and cocktails.
