Progressive and yet laid back, Seattle offers a wide range of entertainment, live music and family fun for all to enjoy. Called The Emerald City, Seattle is the largest city in the Northwest United States and is home to the iconic Space Needle, the famous Pike Place Market and the new Chihuly Garden and Glass. Noted as the birthplace of grunge music and serious coffee shops (Starbucks and Tully's), Seattle is far sunnier than its reputation as a rainy city. In fact, Seattle receives less rain than many major U.S. cities including New York and Miami. Seattle is a green city with an abundance of evergreen trees and spectacular views of the Cascade Mountains to the east and the Olympic Mountains to the west.

THE CITY

Ryan C Slimak/Shutterstock.com

The uniqueness of Seattle is the combination of a metropolitan city, a collection of neighborhoods each with its own personality and a natural setting of lakes and mountains. In Seattle, you can kayak by day and go to the opera at night. Local tourism officials describe the city as "metronatural." Yet, the entire city shares a collective vibe that is casual, educated, and forward-thinking.

Sitting between Puget Sound and Lake Washington, the city's shoreline offers piers, waterside attractions and a variety of water tours. Mount Ranier, the highest mountain in Washington, is less than 60 miles away and on a clear day it dominates the southeastern horizon of Seattle. About the same distance north of the city sits Mount Baker, one of the snowiest places in the world.

Technology has emerged as a major influence on local culture. The Seattle-area is home to companies like Amazon.com and Microsoft (in nearby Redmond). Boeing is also a major local employer, and visitors can tour the factory where they build and test their aircraft. One of the city's most popular attractions, The Museum of Flight, highlights aviation and space history.

DO & SEE

lytfyre (image cropped)

For those visiting Seattle for the first time, taking a tour is a great way to get a feel for the local history and attractions. Seattle offers a variety of ways to explore and enjoy the city.

A Seattle Double Decker Tour is an easy way to see the best sites of Seattle. Hop on or off at any attraction, or ride the entire loop for a complete tour. A lake cruise will give a uniquely different view of the city and its waters. Some lake tours offer dining options to enjoy while you take in spectacular waterfront views. Or, you can enjoy Seattle from both land and water on a one-of-a-kind Duck Tour aboard a WWII amphibious landing craft. Whichever you choose, a tour is a perfect, family-friendly way to explore the many sights, sounds and attractions of Seattle.

In addition to the Space Needle, Seattle's most recognizable landmark, visitors should be sure to include a visit to the world renowned Seattle Art Museum (called SAM by locals). Popular outdoor activities include whale watching tours, winery visits and the 270-foot waterfall at Snoqualmie Falls is a shutter-bug's delight. Top off any day in Seattle with a wide choice of museums, live music venues and neighborhood coffee shops.

BARS & NIGHTLIFE

Roman Khomlyak/Shutterstock.com

Seattle has no shortage of local bars and nightclubs that are sure to make any visitor feel like a real native. Blues clubs, British bars, Irish pubs, lounges, dive bars and college bars are just a few of the varieties you will find. Just as Seattle's food scene relishes using local products, their bars show local pride with most having at least a couple of regional and local beers on tap. The city was early to the craft cocktail craze, in which hand-mixed cocktails with fresh juices and garnishes push your typical margarita mix.

During the 1980s and early 1990s, a collection of bands from Seattle cultivated a distinct sound commonly known as grunge. A mixture of hard rock, punk and metal, the so-called "Seattle sound" helped foster the contemporary rock movement. Several top grunge bands call Seattle home including Nirvana, Pearl Jam and Alice in Chains. The live music scene in Seattle is vibrant.
