

Quepos

Photo: kansasphoto

edward stojakovic

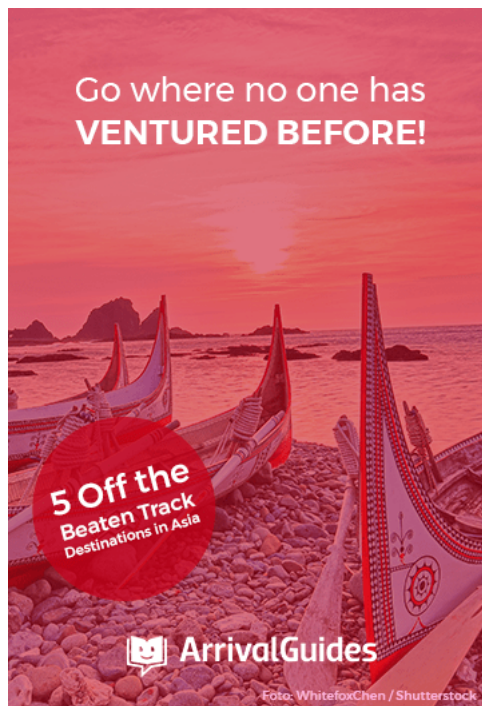

The world bestowed a wealth of biodiversity, rainforests, waterfalls, and sublime coastlines to Quepos, Costa Rica. Named for the native Quepoa Indians who inhabited the area in the colonial era, Quepos is quite the natural wonder. Only ten degrees north of the equator, the city also champions the Pacific Ocean to its west and the Caribbean Sea to its east. Such prime coordinates provide a veritable sanctuary for outdoors enthusiasts.
